Dear Mr. Makabenta

I regret to inform you that by unanimous decision, the WPA Board of Directors have voted in favour to withdraw the sanction for both the World Ten Ball Championship and World Summit events, with immediate effect.

Our bank records show that you haven't lodged the amount that was requested in my October 3 letter to you, and in fact that letter has gone unanswered. Together with this and your continued refusal to make any official announcement or provide updated information regarding these events, it has left the Board with no alternative but to withdraw the sanctioning.

These two events will be taken from our calendar and our members will no longer be willing to communicate any information to their players regarding your events.

Sincerely
